

Let's Learn About

1

Science

Chapter 1

Big Question

Why did God give people five senses?

Science and Scientists

God created our world.
He created all that is in it.
Last of all, God created people.

God gave people minds.
He gave us minds to learn about His world.
God created people to be curious.
God created us to ask questions.
What questions do you ask about God's world?

Lesson 2

What Is Science?

God's world is full of amazing things.

Those things are all around you.

Science is the study of God's world.

God wants you to learn about His world.

God wants you to ask questions about His world.

Science can help you answer questions.

What questions do you have about God's world?

Science can answer some questions.

What do you add to the dirt to grow plants?

What happens to ice in the sun?

Science can answer these questions.

Science cannot answer some questions.

Where did the world come from?

Why are you here?

Science cannot answer these questions.

Can this frog swim?
Can science answer your question?

God tells us to love our neighbors.
People study science to show love.
People study science to help others.
You can learn what a plant needs.
This helps you grow a flower.
You can give it to a neighbor who is sick.
You are using science to help others.

God tells us to care for the earth.
People study science to care for
the earth.
You can learn what an animal
needs.
This helps you care for animals.
You can care for dogs at a shelter.
You are using science to care for
the earth.

Why is science important?

EXPLORATION

Process Skill

- Observe

Looking at God's World

In this Exploration you will look at God's world.

Your home is part of God's world.

Everything around you is part of God's world.

Let's take a closer look at your home.

Lesson 3

What Are the Five Senses?

God gave you ways to find out about His world.

Senses are the ways God gave you to find out about the world.

Your five senses are sight, touch, smell, taste, and hearing.

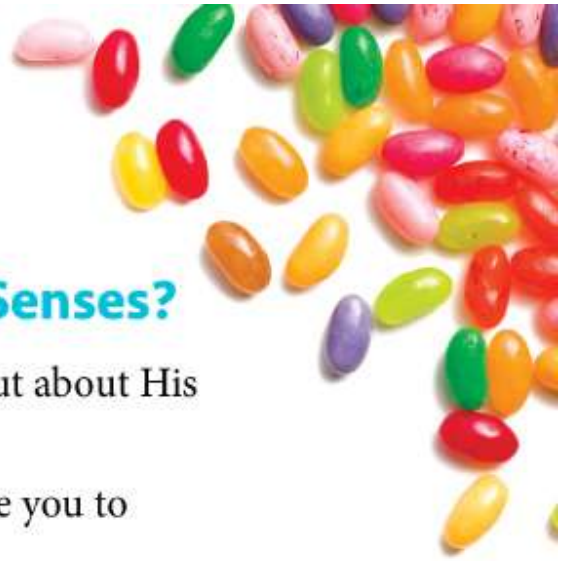

Sight

You see with your eyes.

You can see shapes or sizes of things.

You see many different things.

Your sense of sight helps you find out about God's world.

Touch

You use your hands and fingers to touch.

You touch bumpy or smooth things.

You touch many different things.

Your sense of touch helps you find out about God's world.

Smell

You use your nose to smell.

You can discover good smells or stinky smells.

You smell many different things.

Your sense of smell helps you find out about God's world.

What are the five senses?

Taste

You use your tongue to taste.
You taste things that are sweet.
You taste things that are sour.
You taste many different things.
Your sense of taste helps you
find out about God's world.
