Functions of Mathematics 11

	Page		Page
Chapter 1 – Relations and Functions		Chapter 6 – Sequences and Series	
1.1 Graphs	2	6.1 Sequences and Relations	169
1.2 Relations	6	6.2 Arithmetic Sequences	171
1.3 Representing Data Using Function Models	17	6.3 Arithmetic Series	177
1.4 Defining a Function	21	6.4 Geometric Sequences	182
1.5 Domain and Range of a Function	26	6.5 Geometric Series	186
1.6 Determine the Rule or Relationships in Data	31	6.6 Sums of Infinite Geometric Series	190
1.7 Function Notation and Relations	40	6.7 Binomial Theorem	194
Chapter 2 – Transformations		Chapter 7 – Financial Literacy	
2.1 Vertical and Horizontal Translations	53	7.1 Using a Calculator (Review)	205
2.2 Compressions and Expansions	60	7.2 Investments	207
2.3 Reflections and Inverses	69	7.3 Investments with Regular Payments	212
Chapter 3 – Relations and Quadratic Functions		7.4 Loans with Regular and Single Payments	215
3.1 Graphs of Quadratic Functions (Review)	84	Chapter 8 – Trigonometry: Angles and Graphs	
3.2 Completing the Square	97	8.1 Definition of Trig Functions and Angles in Standard Position	222
3.3 Maximum and Minimum Problems	101	8.2 Special Angles	232
3.4 Intersection of a Line and a Parabola	106	8.3 Sine Law	238
Chapter 4 – Algebraic Expressions		8.4 Cosine Law	243
4.1 Simplifying Radicals by Factoring	112	8.5 Solving General Triangles	247
4.2 Adding and Subtracting Radicals	115	8.6 Graphs of Trigonometric Functions	254
4.3 Multiplication and Division of Square Root Radicals	119	8.7 Transformations of Graphs of Trigonometric Functions	258
4.4 Review of Operations of Polynomials	124	8.8 Identities	267
4.5 Rational Algebraic Expressions	130	Answers to Exercises and Tests	278
4.6 Products and Quotients of Rational Expressions	132		
4.7 Sums and Differences of Rational Expressions	134		
Chapter 5 – Exponents			
5.1 Laws of Exponents	141		
5.2 Laws of Exponents for Rationals	146		
5.3 Applications of Rational Exponents	150		
5.4 Exponential Functions	154		
5.5 Solving Exponential Equations and Identities	159		
5.6 Problems Involving Applications of Exponents	161
