

Dear Parents,

Helping kids understand and apply mathematics knowledge and skills is a collective responsibility of parents, teachers, and principals.

Students need to learn mathematics in a way that will serve them throughout their lives. Understanding mathematics can provide our students with many job and career opportunities.

This is why students need to know why mathematics works the way it does, how to use it with confidence and competence when solving problems.

Understanding mathematics enables us to:

- Solve problems, make sound decisions and perform calculations with ease
- Explain how we solved a problem and why we made a particular decision
- Understand patterns and trends so that we can make predictions
- Understand Financial Literacy to manage time and money
- Handle everyday situations that involve numbers and feel confident

Before your child can learn mathematics, he or she needs to believe in his or her ability to do so. That's where you come in!

Parents, you are your child's first role model for learning. When you engage with your child in a supportive, relaxed atmosphere, your child will enjoy exploring the world of mathematics.

Dynamic Math is committed to helping parents and students. We understand that not everyone learns the same way, and not everyone feels the same about math. This is why we are continually working to create math resources that help students of all abilities, while supporting the many learning styles and varying levels of enthusiasm towards math.

From our clear concise instructions and straightforward guided examples to our additional practice material and tests, there's something to suit everyone. Combined with our video tutorials, students will be able to get a tutor-like experience from anywhere and at a fraction of the cost of standard tutoring or after-school help programs.

Table of Contents

Mathematics 11 – Pre-Calculus

Unit 1 – Numbers and Radicals	Page	Unit 5 – Factoring Polynomials	Page
1.1 The Real Number System	2	5.1 Review of Factoring in General	138
1.2 Powers and Roots of Numbers	9	5.2 Factoring $ax^2 + bx + c, a \neq 0$	144
1.3 Ordering Radicals and Using a Calculator to Approximate Values	13	5.3 Factoring $a^2x^2 - b^2y^2, a \neq 0, b \neq 0$	147
1.4 Simplifying Radicals by Factoring	17	5.4 Factoring $a[f(x)]^2 + b(f(x)) + c, a \neq 0$	149
1.5 Adding and Subtracting Radicals	20	5.5 Factoring $a^2[f(x)]^2 - b^2[g(y)]^2; a \neq 0, b \neq 0$	151
1.6 Multiplication and Division of Square Root Radicals	24	5.6 Combination of Factoring	153
1.7 Laws of Exponents for Rationals	29	<i>Curricular Competencies</i>	155
1.8 Applications of Rational Exponents	34	Unit 6 – Relations and Quadratic Functions	
<i>Curricular Competencies</i>	38	6.1 Review of Relations and Functions	159
<i>Aboriginal Applications</i>	39	6.2 Graphs of Quadratic Functions	172
		6.3 Transformations of Quadratic Functions	186
Unit 2 – Properties and Applications of Radicals		<i>Curricular Competencies</i>	192
2.1 Writing Radicals in Simplest Form	47	<i>Aboriginal Applications</i>	193
2.2 Product of a Binomial times a Binomial	51	Unit 7 – Applications with Quadratic Functions	
2.3 Conjugates of Binomials and Rationalizing Denominators	54	7.1 Completing the Square	200
2.4 Relationships between Roots, Absolute Values and Signs	57	7.2 Maximum and Minimum Problems	205
2.5 Solving Equations Involving Radicals	59	7.3 Solving Quadratic Equations	210
2.6 Problems Involving Radical Equations	64	7.4 The Discriminant	227
<i>Curricular Competencies</i>	70	<i>Curricular Competencies</i>	231
<i>Aboriginal Applications</i>	71	<i>Aboriginal Applications</i>	232
		Unit 8 – Inequalities	
Unit 3 – Rational Expressions and Equations		8.1 Graphing Inequalities in One Variable in Two Dimensions	241
3.1 Rational Expressions	77	8.2 Graphing Inequalities in Two Variables	245
3.2 Adding and Subtracting Rational Expressions	81	8.3 Graphing Systems of Linear and Quadratic Inequalities	251
3.3 Multiplying and Dividing Rational Expressions	83	8.4 Graphing Quadratic Inequalities in One Variable	260
3.4 Multiple Operations with Rational Expressions	86	8.5 Problems for Quadratic Inequalities	265
3.5 Rational Equations	88	<i>Curricular Competencies</i>	268
3.6 Solving Problems Involving Rational Equations	91	<i>Aboriginal Applications</i>	269
<i>Curricular Competencies</i>	96	Unit 9 – Financial Literacy	
Unit 4 – Trigonometry		9.1 Simple and Compound Interest	275
4.1 Definition of Trig Functions and Angles in Standard Position	100	9.2 Using a Calculator	279
4.2 Special Angles	110	9.3 Investments	281
4.3 Law of Sines	115	9.4 Investments with Regular Payments	286
4.4 Law of Cosines	120	9.5 Loans with Regular and Single Payments	289
4.5 Solving General Triangles	124	9.6 Buying and Leasing	293
<i>Curricular Competencies</i>	130	<i>Curricular Competencies</i>	297
<i>Aboriginal Applications</i>	131	Answers to Exercises and Unit Tests	302
