4. No, I do not agree with Rick.  
Accept all correct explanations. Example:  
Rick should be subtracting the number at the bottom from the number at the top, not the other way round.  
Since 8 ones cannot be taken from 1 one, Rick needs to rename the tens and ones.  
6 tens 1 one = 5 tens 11 ones  
Subtract 8 ones from 11 ones.

$$\begin{array}{r} \begin{array}{cc} 5 & 11 \\ \cancel{6} & \cancel{1} \end{array} \\ - \quad 8 \\ \hline 5 \quad 3 \end{array}$$
