H! My name is Gabe. I
want to tell you

about the Bible.

The Bible is

the most

important

book in the

whole world!

Do you know

why the Bible is

so important?

Pretend that no one ever talked to you. What if your parents never said anything to you or read books to you? What if no one taught you how to tie your shoes or say your ABCs? That would be very bad.

Even worse, what if God never spoke to you? What if God never told you about himself? What if the God who made you never told you how to live? That would be *terrible!*

*Deuteronomy 4:5-14;
Psalm 28:1*

But God has spoken! God wants you to know Him. But we can only know God if He tells us about himself.

Isaiah 1:2; 55:8; Daniel 2:22

God tells us about himself by the things that He made. I like looking through my telescope. I know that God is powerful and amazing when I look at the sky and see all the stars He has made.

Psalm 19:1; Romans 1:20

We learn some things about God by looking at the world, but we cannot learn everything God wants us to know. God wanted to tell us special things about himself, so He gave us the Bible. The Bible is important because God talks to us through the Bible!

1 Corinthians 2:6-13; Ephesians 1:9; 3:5; Isaiah 30:8
