## PLACEMENT TEST for the Calvert Curriculum

### Instructions

This test is designed to aid in proper placement of the student into the Calvert curriculum. It has two sections: the Student Test and the Answer Key. The Answer Key follows the Student Test.

This is not a timed test and the student should be given an opportunity to answer each question adequately. If the student becomes bogged down and the test seems too difficult, skip to the next section. If the test is still too difficult, this child's academic skill level has been reached and testing may stop. Each test level should take no longer than one hour.

Once the test has been administered, it is ready to be scored. The teacher or parent does all of the scoring. Use the Answer Key that follows the test pages to mark all incorrect answers on the Student Test. Next, record the total number of correct answers in the Score box. There are ten possible points per unit. Each numbered question equals one point. When all tests have been graded, transfer the number correct by unit to the blanks below. Then add the total number of points for the grade level.

Unit 1	Unit 2	Unit 3	Unit 4	Unit 5	Unit 6	Unit 7	Unit 8	Unit 9	Unit 10	Total
_____	_____	_____	_____	_____	_____	_____	_____	_____	_____	_____

**GRADE LEVEL PLACEMENT:** A student can be placed academically using the rule that he/she has successfully passed the test for any given level if he/she achieves a Total Score of 70 points or more.

**READING LEVEL:** Students should be placed at their instructional reading level in science and history & geography. The purpose of the Read test is to quickly determine this reading level. Although no test is absolute, the READ Test is a good indication of the match between the student's ability to read and the ability to handle the Calvert curriculum. A score of 6 to 10 on the Read test indicates the student's instructional level or the level at which the student would be most successful in the Calvert curriculum. Based on the scores from the READ portion of the grade level test, this student would work most independently at the \_\_\_\_\_ level.

**NOTE:** The placement for reading level is based solely on the READ test. Other factors that may be considered are the student's last grade completed and scores on Standardized Achievement Tests. It is not unusual for a student to place at more than one level in various subjects when beginning the Calvert curriculum. The majority of school time should be concentrated on the areas of lower achievement with the ultimate goal of equal skill mastery in all subjects at the same grade level.
