

# Outdoor Fun

The earth is made up of different natural features. Most were formed by nature long ago. Some of the features are **landforms** like hills and valleys. Others are **bodies of water** like lakes and rivers.

Using the words below, draw a line from each **fun activity** to its **landform** or **water body**. The picture will help you. You may use some words twice. Colour the water.

**mountain**

**valley**

**lake**

**hill**

**river**

**swim**

**paddle**

**hike**

**cycle**

**ski**

**Draw yourself in the picture above having fun!**

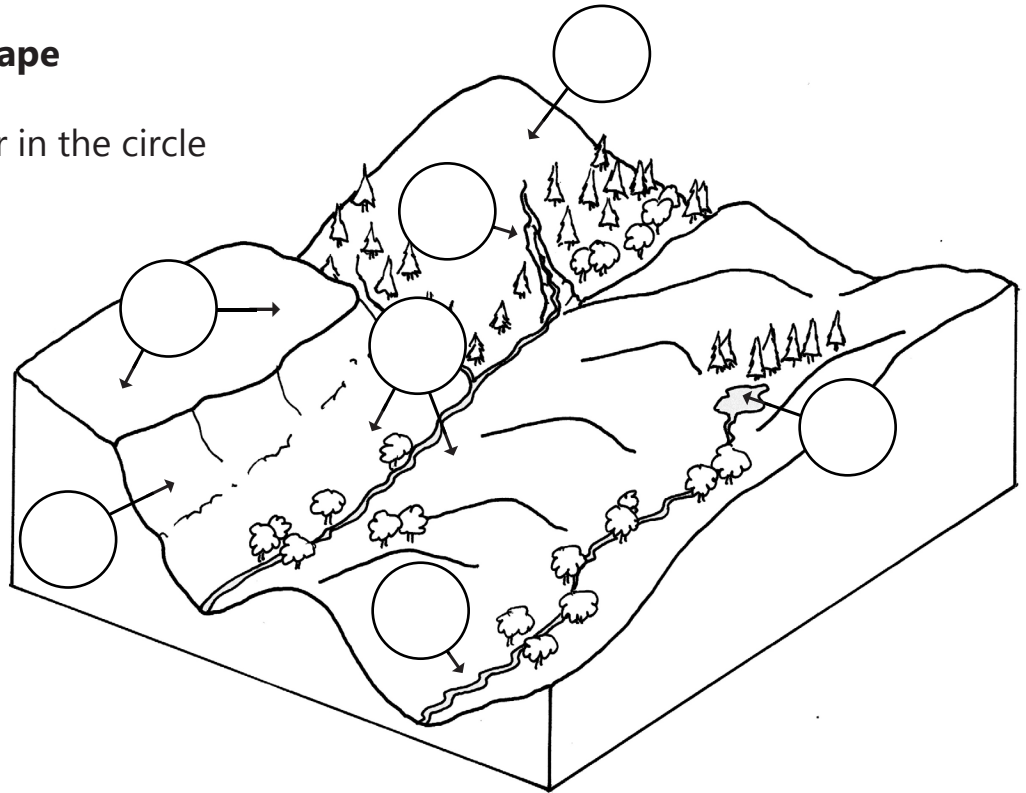

# Different Landscapes

Number the circles in each drawing.

## A Hilly Landscape

Put the number in the circle that shows a:

1. cliff
2. hill
3. valley
4. gully
5. stream
6. pond
7. plateau

## A Coastal Landscape

Put the number in the circle that shows a:

1. beach
2. inlet
3. river
4. island
5. lowland
6. coast
7. channel
