

## Table of Contents

- Using this Course
- Schedule
- Lesson 1: Review of Place Value, Odds and Evens, Counting by 2s, 5s, 10s
- Lesson 2: Review of Money, Clocks, Perimeter, Addition/Subtraction Facts
- Lesson 3: Review of Addition, Including Carrying, Tally Marks
- Lesson 4: Review of Subtraction, Including Borrowing Concepts
- Lesson 5: Review of Measurement, Fractions, Thermometers, Graphs
- Lesson 6: Review of Word Problems
- Lesson 7: Introducing Column Addition and Adding Larger Numbers
- Lesson 8: Introducing Larger Number Subtraction
- Lesson 9: Introducing Rounding to the 10s and 100s
- Lesson 10: Adding and Subtracting Larger Amounts of Money
- Lesson 11: Review of All New Concepts
- Lesson 12: Introducing Multiplication of 0, 1, 2, and 5
- Lesson 13: Introducing Division of 1, 2, and 5
- Lesson 14: Introducing Multiplying and Dividing by 10
- Lesson 15: Introducing the Area of Rectangles and Squares
- Lesson 16: Introducing Multiplying and Dividing by 3
- Lesson 17: Taking Fractions Deeper
- Lesson 18: Introducing Multiplying and Dividing by 4
- Lesson 19: Introducing Multiplying and Dividing by 6 and 7
- Lesson 20: Introducing Multiplying and Dividing by 8 and 9
- Lesson 21: Review of All New Concepts
- Lesson 22: Introducing Rounding to 1000s and Estimation
- Lesson 23: Introducing Higher Place Value through Millions
- Lesson 24: More Measurement Concepts
- Lesson 25: Introducing Solving for Unknowns
- Lesson 26: Introducing Inequalities
- Lesson 27: Review of New Concepts
- Lesson 28: Addition and Subtraction of Larger Numbers
- Lesson 29: Introducing Roman Numerals
- Lesson 30: More about Roman Numerals
- Lesson 31: Review of All Addition and Subtraction Concepts
- Lesson 32: Review of Rounding, Estimation and Place Value
- Lesson 33: Review of All Multiplication
- Lesson 34: Review of All Division
- Lesson 35: Review of All Measurement, Fractions
- Lesson 36: Review of All Roman Numerals and Shapes
- Optional Review Activities
- Manipulatives
- Answer Key
