

Table of Contents

- Using this Course
- Schedule
- Lesson 1: Review of All Addition and Subtraction Concepts
- Lesson 2: Review of Place Value, Estimation, and Rounding
- Lesson 3: Review of All Multiplication
- Lesson 4: Review of All Division
- Lesson 5: Review of All Fractions and Measurement
- Lesson 6: Review of All Roman Numerals and Shapes
- Lesson 7: New: Fraction Concepts (adding and subtracting like denominators)
- Lesson 8: New: Multiplication with Carrying Using 11's and 12's
- Lesson 9: New: Measurement and Geometric Concepts
- Lesson 10: Review of All New Concepts
- Lesson 11: Steps of Division (single digit divisor, no remainder)
- Lesson 12: Number Grouping - Understanding Larger Multiplication
- Lesson 13: More About Division - Including Checking Division
- Lesson 14: Division with a Remainder (single digit divisor)
- Lesson 15: Metric Units of Measure
- Lesson 16: Review of All New Concepts
- Lesson 17: Introducing Mixed Numbers (adding and subtracting with like denominators)
- Lesson 18: Introducing Equivalent Fractions through Pictures
- Lesson 19: More About Equivalent Fractions
- Lesson 20: Larger Number Multiplication with Carrying
- Lesson 21: Review of All New Concepts
- Lesson 22: Writing Decimals and Fractions
- Lesson 23: Money Work with Decimals and Fractions
- Lesson 24: Relationship Between Fractions, Decimals, and Percents
- Lesson 25: Geometry
- Lesson 26: More Geometry
- Lesson 27: Review of All New Concepts
- Lesson 28: Work with Charts and Graphs
- Lesson 29: Constructing Charts and Graphs
- Lesson 30: Introducing Averaging
- Lesson 31: Review of All Addition and Subtraction
- Lesson 32: Review of All Division and Multiplication
- Lesson 33: Review of All Geometry
- Lesson 34: Review of All Measurement
- Lesson 35: Review of All Fractional Concepts
- Lesson 36: Review of All Decimal Concepts
- Manipulative Section
- Appendix
- Solutions Manual
