# REVIEW: JOIN 5

JOIN 5 joins are underlined.

The Earth is divided into seven continents: Africa, Antarctica, Asia, Australia, Europe, North America, and South America.

Handwriting practice lines with a dashed letter 'T' on line 5 and empty lines 6, 7, and 8.

NOTE: In this paragraph, the join from the baseline into n, m, r, and x is Join 2, shown on pages 19 and 24.

Biome: a large region characterized by a specific kind of climate and certain kinds of plant and animal communities.

Handwriting practice lines with a dashed letter 'B' on line 11 and empty lines 12, 13, and 14.

LOOK at your writing.

### CHECKLIST

- letter shape
- letter size
- letter slope
- letter spacing

PLAN how to make the joins look more like the models.

PRACTICE on lined paper.

The major biomes are: desert or semi-desert, mountain zones, polar ice, savanna, taiga (coniferous forest in cold, wet climates), temperate forest, temperate grassland, tropical forest, and tundra.

Handwriting practice lines with a dashed letter 'T' on line 20 and empty lines 21, 22, 23, and 24.
