

# *Science in the Scientific Revolution*

## Table of Contents

### *Lessons 1-15: The Revolution Begins* ..... 1

Lesson 1: Nicolaus Copernicus (1473 – 1543) .....	1
Lesson 2: More Evidence for the Heliocentric System .....	4
Lesson 3: Objections to the Heliocentric System.....	7
Lesson 4: Another Objection to the Heliocentric System .....	10
Lesson 5: Andreas Vesalius (1514 – 1564).....	13
Lesson 6: Cartilage and Bones .....	16
<b>Lesson 7: Vesalius and His “Muscle Men”</b> .....	19
Lesson 8: Muscles, Tendons, and Ligaments.....	22
Lesson 9: Arteries and Veins.....	25
Lesson 10: Nerves and the Brain.....	28
Lesson 11: The Digestive Organs .....	31
<b>Lesson 12: A Trip Through the Digestive Tract</b> .....	34
Lesson 13: The Kidneys and Bladder.....	37
Lesson 14: The Heart and Lungs.....	40
<b>Lesson 15: Heart Valves</b> .....	43

### *Lessons 16-30: The Revolution from the Mid-1500s to the Early 1600s*..... 47

Lesson 16: Girolamo Fracastoro (c. 1476 – 1553).....	47
Lesson 17: Conrad Gesner (1516 – 1565).....	50
Lesson 18: Conrad Gesner and Plants.....	53
Lesson 19: Conrad Gesner and Animals .....	56
Lesson 20: Pierre Belon (1517 – 1564).....	59
Lesson 21: Michael Servetus (c. 1509 – 1553) .....	62
Lesson 22: Tycho Brahe (1546 – 1601) .....	65
Lesson 23: Tycho Brahe’s View of the Universe.....	68
Lesson 24: Galileo Galilei (1564 – 1642) .....	71
Lesson 25: Galileo and Friction .....	74
Lesson 26: Galileo and Falling Objects .....	77
Lesson 27: Galileo and Projectiles .....	80
<b>Lesson 28: How Galileo Measured Time</b> .....	83
<b>Lesson 29: How Galileo Measured Temperature</b> .....	86
<b>Lesson 30: Galileo and the Telescope</b> .....	89

*Lessons 31-45: The Revolution in the Early 17<sup>th</sup> Century*..... 93

Lesson 31: Galileo and Heliocentrism ..... 93  
 Lesson 32: Johannes Kepler (1571 – 1630) ..... 96  
 Lesson 33: Johannes Kepler and Astronomy ..... 99  
 Lesson 34: Johannes Kepler and Tides ..... 102  
 Lesson 35: Francis Bacon (1561 – 1626)..... 105  
 Lesson 36: Jan Baptist van Helmont (1580 – 1644) ..... 108  
**Lesson 37: Jan Baptist van Helmont and Carbon Dioxide**..... 111  
 Lesson 38: William Harvey (1578 – 1657) ..... 114  
 Lesson 39: James Ussher (1581 – 1656)..... 117  
 Lesson 40: Joachim Jungius (1587 – 1657) ..... 120  
 Lesson 41: Evangelista Torricelli (1608 – 1647) ..... 123  
 Lesson 42: René Descartes (1596 – 1650) ..... 126  
 Lesson 43: Blaise Pascal (1623 – 1662)..... 129  
**Lesson 44: Pascal’s Law** ..... 132  
**Lesson 45: Pascal and Probability**..... 135

*Lessons 46-60: The Revolution in the Middle of the 17<sup>th</sup> Century* ..... 139

Lesson 46: Thomas Bartholin (1616 – 1680)..... 139  
 Lesson 47: Otto von Guericke (1602 – 1686) ..... 142  
 Lesson 48: Otto von Guericke and Electrical Charge ..... 145  
 Lesson 49: Christiaan Huygens (1629 – 1695) ..... 148  
 Lesson 50: Christiaan Huygens and Collisions ..... 151  
 Lesson 51: Christiaan Huygens and Clocks ..... 154  
 Lesson 52: Christiaan Huygens and Light..... 157  
 Lesson 53: Robert Boyle (1627 – 1691)..... 160  
 Lesson 54: Robert Boyle and the Vacuum ..... 163  
**Lesson 55: Robert Boyle and His Law** ..... 166  
 Lesson 56: Marcello Malpighi (1628 – 1694)..... 169  
 Lesson 57: Robert Hooke (1635 – 1703) ..... 172  
**Lesson 58: Robert Hooke and Fossils** ..... 175  
**Lesson 59: Robert Hooke and His Law**..... 178  
 Lesson 60: Robert Hooke and the Planets..... 181

*Lessons 61-75: The Revolution Near the End of the 17<sup>th</sup> Century*..... 185

Lesson 61: Giovanni Cassini (1625 – 1712) ..... 185  
 Lesson 62: Francesco Redi (1626 – 1697) ..... 188  
 Lesson 63: Francesco Redi and Spontaneous Generation ..... 191  
 Lesson 64: Antoni van Leeuwenhoek (1632 – 1723)..... 194  
**Lesson 65: AvL on Populations and Spontaneous Generation** ..... 197  
 Lesson 66: John Ray (1627 – 1705) ..... 200  
 Lesson 67: Nehemiah Grew (1641 – 1712)..... 203  
 Lesson 68: Sir Isaac Newton (1643 – 1727) ..... 206  
**Lesson 69: Isaac Newton and Diffraction** ..... 209  
 Lesson 70: Isaac Newton’s Universal Law of Gravitation ..... 212  
 Lesson 71: Isaac Newton and His First Law ..... 215  
 Lesson 72: More on Inertia ..... 218  
**Lesson 73: Still More on Newton’s First Law** ..... 221  
 Lesson 74: Isaac Newton and Acceleration..... 224  
 Lesson 75: Isaac Newton and His Second Law..... 227

*Lessons 76-90: The Revolution at the End of the 17<sup>th</sup> Century* ..... 231

Lesson 76: More on Newton’s Second Law..... 231  
 Lesson 77: Newton’s Second Law and Gravity ..... 234  
 Lesson 78: Newton and His Third Law..... 237  
 Lesson 79: Putting It All Together ..... 240  
**Lesson 80: Gravity, Newton’s Laws, and Net Force**..... 243  
 Lesson 81: The Conservation of Momentum ..... 246  
**Lesson 82: More on the Conservation of Momentum**..... 249  
 Lesson 83: Isaac Newton and Viscosity ..... 252  
 Lesson 84: One More Lesson on Isaac Newton ..... 255  
 Lesson 85: Guillaume Amontons (1663 – 1705) ..... 258  
 Lesson 86: More about Guillaume Amontons and Friction ..... 261  
 Lesson 87: One More Thing About Friction ..... 264  
 Lesson 88: Gottfried Wilhelm Leibniz (1646 – 1716) ..... 267  
**Lesson 89: More on Gottfried Wilhelm Leibniz** ..... 270  
 Lesson 90: Ole Christensen Rømer (1644 – 1710) ..... 273  
 Some Final Thoughts ..... 276

*Glossary*..... 277

*Index*..... 295
