

TABLE OF CONTENTS

Unit 1: Digestive System and Metabolism

1. Introduction.....	6
2. Overview of the Digestive System.....	8
3. Anatomy of the Digestive System	16
The Mouth.....	17
The Esophagus.....	32
The Stomach.....	36
The Pancreas	45
The Liver and Gallbladder	50
The Small Intestine	59
The Large Intestine	66
4. Nutrition and Metabolism	72
Carbohydrates.....	74
Proteins.....	78
Lipids	83
What Is Metabolism?.....	101
5. A Lesson from Genesis.....	106

Unit 2: The Reproductive System

1. Introduction.....	110
2. The Genetic Blueprint for the Body.....	112
The Genome.....	112
Basic Genetics—The Answer Is Forty-Six	114
Dominant and Recessive Alleles	115
Genotype and Phenotype	120
Copying Genetic Information.....	131
3. The Human Reproductive System.....	140
Male Reproductive System Anatomy.....	141
Female Reproductive System Anatomy.....	143
Your First Journey	151
A Place Prepared.....	153
Supplying the Early Embryo’s Needs	157
4. Organogenesis	170
5. The Life of the Fetus	194
6. When Did I Begin to Be Me?.....	200

Unit 3: Special Systems

Introduction	206
1. Blood	208
Introduction to Blood.....	208
Types of Blood Cells	211
Leukocytes.....	220
Blood Transfusions	226
2. Lymphatic System	232
Lymphatic Vessels	234
Spleen.....	236
3. Immune System	238
The Purpose of the Immune System.....	238
Other Killer Chemicals	241
Humoral Immunity.....	248
Vaccines.....	256
4. Urinary System	260
Importance of the Urinary System.....	260
Anatomy of the Urinary System.....	264
Filtration — Reabsorption — Secretion.....	270
The Urinary Bladder	287
5. The Endocrine System.....	290
Introduction to the Endocrine System.....	290
Where Do Hormones Come From?	292
The Adrenal Gland and Stress Responses	304
Glands Outside the Master Gland’s Control	313
6. The Integumentary System	320
Two Layers of Skin . . . Plus a Basement.....	321
Hair, Nails, and Glands — the Accessory Structures.....	328
Friction Skin and Fingerprints	346
7. History and the Human Body.....	348
Glossary.....	352
Index	366
About the Authors	375
